<b>SCIENTIFIC ORGANIZATIONS</b>		
Institute of Physics	<i>Basic Research Areas:</i> nuclear geophysics, optical electronics, physics of low-temperature plasma and atomic spectroscopy, physics of solid bodies, radio-physics and physics of atmosphere. Based on discovery of natural uranium-243 and uranium-238 division phenomenon, the new method of measuring geologic time has been elaborated in the field of nuclear geophysics, which covers the period of Earth's history unavailable for other physical methods; the other scientific results have been obtained.	Director: Toktosun Orozobakov, Doctor in Technical Sciences 265, Chuy avenue, Bishkek, Kyrgyz Republic; p/c: 720071, Tel.: (996312) 65-80-16
Institute of Rocks' Physics and Mechanics	<i>Basic Research Areas:</i> mining rocks massif's geo-mechanics; elaboration of minerals deposits and effective use of mineral recourses; valuation, forecast and prophylactics of natural and technogenic disasters; feasibility studies for elaboration of minerals deposits; theory of mine projection, scientific geo-mechanical and geotechnical instrument-making; mechanics of vibro impact and explosive destruction of rocks.	Director: Ilgiz Aitmatov, Academician of the NAS of Kyrgyz Republic, 98, Mederov street., Bishkek, Kyrgyz Republic; p/c: 720035, Tel: (996 312) 54-11-15, Fax: (996 312) 54-11-17
Institute of Engineering Science	<i>Basic Research Areas:</i> elaboration of scientific basis for changeable-structure machines with power-impact systems and establishment of principally new competitive machines and mechanisms with changeable structures of different purposes; elaboration of power impact systems theory and percussion action machines and creation of highly productive energy and material saving machines for constructor and mining.	Director: Murat Jumataev, Corresponding Member of the NAS of Kyrgyz Republic 23, Mederov street., Bishkek, Kyrgyz Republic; p/c: 720055 Tel.: (996 312) 54-11-13 Fax: (996 312) 54-11-49
Institute of Automatic Machinery	<i>Basic Research Areas:</i> management systems automation and information science; hydromelioration systems automation; instrument-making; untraditional energy systems.	Director: Turatbek Omorov, Doctor in Technical Sciences 265, Chuy avenue, Bishkek, Kyrgyz Republic; p/c: 720071 Tel.: (996 312) 65-55-22, E-mail: automatics@aknet.kg
Institute of Mathematics	<i>Basic Research Areas:</i> integral and differential equations theory; research of incorrectly settled tasks; research of equations in quotient derivatives.	Director: Myrzabek Imanaliev, Academician, 265, Chuy avenue, Bishkek, Kyrgyz Republic; pic: 720071 Tel.: (996 312) 25-38-50, (996 312) 65-56-82 , E-mail: mathnas@aknet.kg, website: www.math.aknet.kg
Institute of Geology named after M. Adyshev	<i>Basic Research Areas:</i> regional geology and minerals of Tyan-Shan; Tyan-Shan regional geography; ecological geochemistry; holographic methods of information processing. The Institute of Geology is the single research center in the Republic where geologic structure, minerals, natural conditions and mountain resources are being deeply researched.	Director: Apas Bakirov, Academician, 30, Erkindik avenue, Bishkek, Kyrgyz Republic; pic: 720481 Tel.: (996312) 66-47-37, (996 312) 66-28-31 E-mail: <a href="mailto:geol@sdnn.kum-t.kg">geol@sdnn.kum-t.kg</a>
